

Pompom Popper

SUPPLIES:

- 2 cardboard tubes
- 2 rubber bands
- 1 pencil
- 1 large pompom (or cotton ball/ping pong ball)
- Tape
- Scissors
- Hole punch

Cut one tube and roll it so it's small enough to slide into the other tube. Tape it so it stays small, then punch two holes on opposite sides near the bottom of the tube. Put a pencil through the holes.

Cut small notches into the top of the other tube (as pictured). The rubberbands will fit into these notches.

Place a pompom inside the launcher, pull back on the pencil and release to launch the pompom.
