

Pinwheels

SUPPLIES:

- Pinwheel templates
- Paper straw
- Paper brad
- Hole punch

Instructions:

Punch a hole through the paper paper straw about a centimeter from the top.

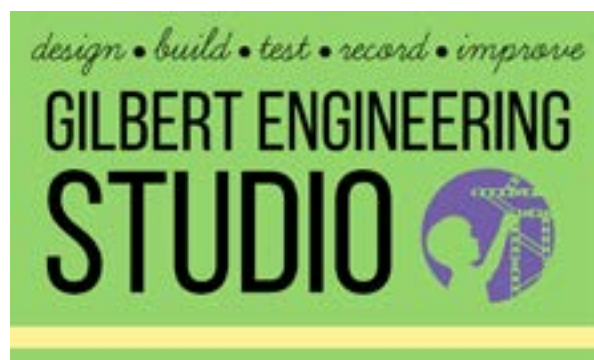

Cut out a pinwheel using our [pinwheel template](#).

Fold each corner of the pinwheel to the center so that all of the dots line up.

Push the brad through the dots to hold the pinwheel together, then push the brad through the hole in the paper straw.

Bend the brad open to secure it in place.

Blow on your pinwheel to see it spin!
